Social Projects on Challenges of Humanity and Environment

Introducing projects by Athira V.K

Social Project Summary

Green Gold of India; Problems and Measures

AKHILA P.V

The study Green Gold of India; Problems and Measures shows the present condition of our Western Ghats. The Western Ghats are internationally recognized as a region of immense global importance for the conservation of biological diversity, besides containing areas of high geological, cultural and aesthetic values. The study tries to find out the significance, problems of Western Ghats, efforts of Madhav Gadgil to protect the Western Ghats and the causes of flood in Kerala. Data required for this study were obtained from online sources and newspapers. Nowadays Western Ghats moved to dangerous situation. This was mainly due to manmade activities. Flood in Kerala was mainly due to the damage of Western Ghats some measures like awareness campaign about the protection of Western Ghats. Controlling quarrying and mining, prevention of deforestation and promotion of organic farming help to prevent the problems of Western hats.

Kashmir- History and Facts

ANJU A

This study is an attempt to trace out the Kashmir issue. Article 370 of the Indian constitution gave special status to Jammu and Kashmir- a region located in the northern part of Indian subcontinent which was administered by India as a state from 1954 to 31st October 2019,

and a part of the larger region of Kashmir, which has been the subject of dispute between India, Pakistan, and China since 1947 conferring it with the power to have a separate constitution, a state flag and autonomy over the internal administration of the state. The study also includes the various problems of Kashmir people.

The Earth; Problems and Solutions

ATHIRA V.K

The project Earth; Problems and Solutions clearly describes the problems of Earth. And suggest some measures to overcome such problems. It's main objective is to identify solutions for earth problems. Urban sprawl, over population, loss of biodiversity, waste disposal, water pollution, deforestation, were the main problems faced by our planet Earth. These problems are highly affected our planet and also the human beings. This project concludes with a message about the importance of protecting our planet.

When the Amazon Rainforest Burns...

MEGANA K.K

This study shows the present condition of Amazon Rainforest. It is known as the lungs of earth. It studies all about the Amazon Rainforest. This study aims to know the importance of Amazon rainforest, to know the causes behind the burning of Amazon rainforest. The data required for the project is obtained from the news papers and online sources. This was a current issue. There are some political interests behind this issue. Influence of man was the major reason for Amazon tragedy. The only way to protect Amazon rain forest is to prevent the exploitation of forest.

Local History of Chokli

SANOOJA P.P

This study explores the local history of Chokli. Chokli was the area situated in the Kannur district as the part of the Thalassery taluk. Kannur was popularly known as the land of looms and lore's. Here is the place of fabulous and wondering stories related to the historical diversity. Chokli was the village of great preceptors. Oorcheri family are the great preceptors. Dr. Hermann Gundert are the missionary man who under the guidance led by Oorcheri family. And also, the great Malayalam- English dictionary are the companion work of the Oorcheri

family and Gundert. The political movement is more popularized and cherished the locality of Chokli. Freedom fighter Moyyarath Sankaran, Appukuttan Nair, Maliyil Devaki Amma are the one of the prominent freedom fighters of Chokli. This project illustrates the cultural and social significance of the local history.

Kerala Flood 2018-19

TOMSON SABU

Beginning of August 15th 2018, severe floods are affected in Kerala, due to high rainfall during the monsoon season. It was the worst flooding in Kerala. Over 483 people died and 15 were missing. All 14 districts were placed on red alert. Kerala received monsoon rainfall which was about 256% more than the usual rainfall in Kerala. Almost 370 people died and 33000 peoples were rescued. Over 3274 relief camps were opened in various locations to provide shelter to those who were affected by flood. There were 40 helicopters, 30 aircraft and 182 teams for rescue. A total of 4537 from the fisherman took part in the rescue operation with 669 fishing boat. The government should take necessary steps to solve the problem of flood and find solutions to overcome them. This project clearly describes Kerala Flood 2019 and it's aftermaths.
