Theme - *Wildesthetic*

Oscar Wilde upheld the notion that an artist must have a “concentration of vision and intensity of purpose” that exclude moral or ethical judgement. It is often considered that artist conceals his identity behind a mask, but Wilde maintained that the mask is more revealing than the actual face. *Wildesthetic* aims to commemorate the man and the mask who attempted to make this distinction in his own life.

Who We Are

Learning Community for English Teachers

An ongoing process in which educators work collaboratively in recurring cycles of collective inquiry and action research to achieve better results for the students they serve. It promotes teacher collaboration and increases student achievement.
