Sponsored by : Kerala State Council For Science,Technology And Environment

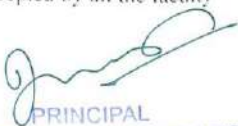

Supported by :Dept Of Science And Technology(DST) Govt Of India

*National Mathematics Day* is celebrated in India for paying tribute to the greatest mathematicians of India. The former Prime Minister of India Dr.Mamohan Singh spoke about the great contributions of the world famous mathematicians and emphasized the necessity to carry their legacy forward by celebrating National Mathematics Day. The great Indian mathematicians such as Brahmagupta, Aryabhata, and Sriniva Ramanujan have played a significant role in developing different formulas, theorems and theories on mathematics in India. And thus, it is important to promote and cultivate the magnificent tradition of Indian Mathematics by celebrating National Mathematics Day.

We, the students of P K M College of Education celebrated National Mathematics Day on 3<sup>rd</sup> August 2018, in memory of the famous Indian mathematician Srinivasa Ramanujan. The programme was sponsored by Kerala state council for science, technology and environment (KSCSTE) and supported by Department of Science and Technology (DST), Govt of India. The whole programme was conducted under the supervision of mathematics department and math lovers club of P K M College of Education. The venue of the programme was at the college auditorium.

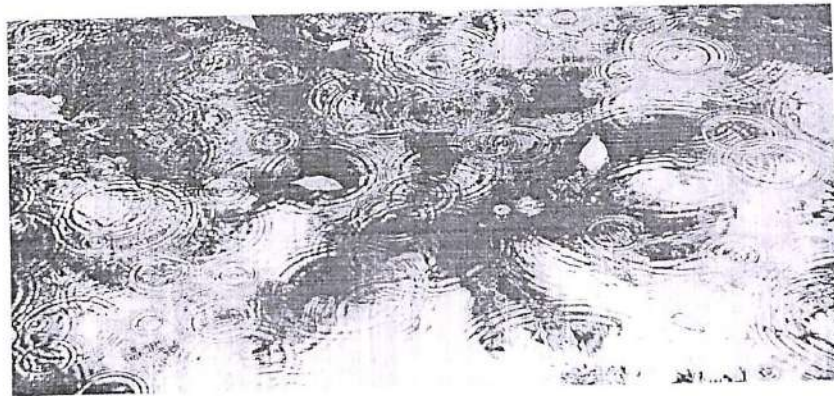

The main attraction of the programme was the seminar on the topic "Mathematical applications in atmospheric science" led by Prof.K.V George Retd H O D of the department of mathematics ,SES College Sreekandapuram and now the current faculty of vinal jyothi engineering college,chemperi. We also included a film show based on the theme "Mathematics in nature and life sketch and contribution of Ramanujan. In associated with national mathematics day ,photography competition was also conducted and the winners were declared at the time of inaugural function and prizes were distributed. The programme conducted by the college was whole heartedly accepted by all the faculty members and students.

As a part of National Mathematics Day, a photography competition was conducted on the topic "Mathematics in nature". The first announcement for the competition was made on 25<sup>th</sup> July 2018 and the last date for the final entry of the photos was on 1<sup>st</sup> August 2018. Surprisingly most of the students participated in the competition and some of the captions are "The dancing raindrops make exact circles to prove that they are the best mathematicians in nature, proportionality distributed to the volumes in different leaves, suspended queue in the leaf, eyes are looking at infinity. And the 1<sup>st</sup> prize was awarded to Reji P George of Social Science by the chief guest Prof K V George.

### TECHNICAL SESSION

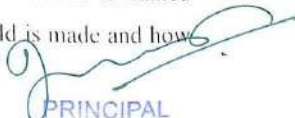

The technical session began at 10.30AM by the welcome speech of Shebin KRaju, student coordinator of mathematics department.

Seminar was on the topic "Mathematical Applications In Atmospheric Science" by Prof K V George. First he introduced about Srinivasa Ramanujan and his contributions in mathematics. He explained Fibonacci series and its magical influence in nature. Later he discussed many interesting natural phenomenonssuch asBig Bang Theory and climate variations etc.

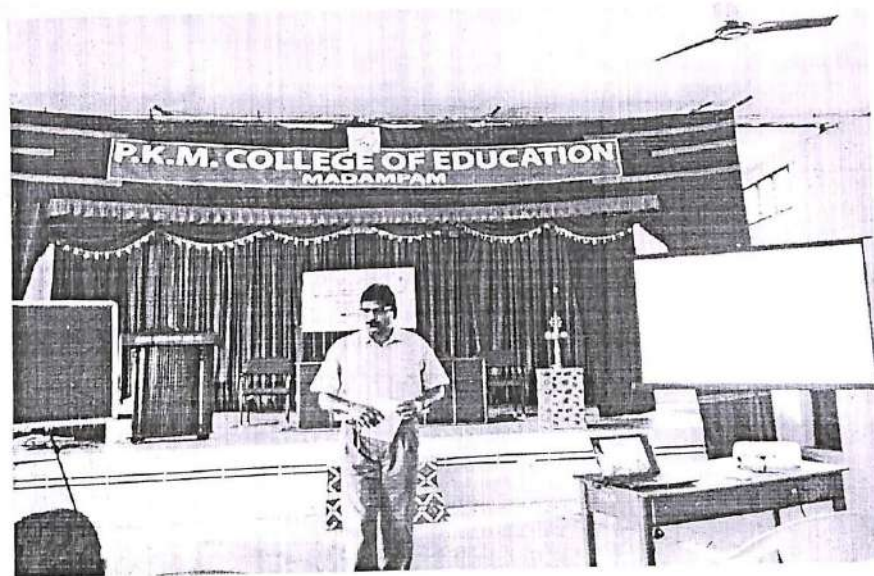

He described about the occurrence of different seasons and in India. The tropical year is divided into four astronomical seasons. In the north the astronomical seasons Spring, Summer, Autumn and winterbegins when the sun comes to march equinox June solstice, September equinox and December solstice respectively.

The most attractive part of the seminar was the history of astrology. In olden days, the sky was mapped out to imaginary pictures and each group of stars forming one of these pictures was called constellation. There are altogether 88 constellation.the name of many constellations are animal mythological characters occupations etc.Each Zodic sign contains a constellation and it is named after the imaginary figure it resembles.We all understood how horoscope of a child is made and how it is related to these constellations, called Zodical constellations.

### FILM SHOW

A film show on the themes "Mathematics In Nature And Life Sketch And Contribution Of Ramanujan" was presented after the seminar session. Ramanujan's early life- birth and education, meeting with G.H.Hardy, his contributions in Mathematics were beautifully shown in the film show.

The show also exhibit many natural situation where Fibonacci sequence is used. This sequence is seen in smallest nautilus, the number of petals found in a flower, palm fruit bunches, tree branches and even in the shape of the largest galaxy's. The sequence is also directly connected with the Golden Ratio and is used throughout history in many heavenly works such as Great Pyramid of Giza, Taj Mahal, the painting Mona Lisa etc.

### FEEDBACK SESSION

Feedback session of National Mathematics Day celebration was conducted soon after the programme. A questionnaire consisting of three questions was given to all participants. The questions were

## Name of the programme: Malayala Bhasha Prathinja

### Report on the Malayalam Bhasha Prathinja

Malayalam is a Dravidian language primarily spoken in the Indian state of Kerala and the Union Territory of Lakshadweep. Malayalam uses its own scripts, which is a syllabic alphabet, it is a unique feature among Indian languages. A high-level committee chaired by Chief Minister Oommen Chandy decided to celebrate November 1 as Malayalam Day and from November 1 to 7 as classical language Week. As a part of that PKM College of education conducted a "Malayalam Bhasha prathinja" on 1-11-2018.

"Malayalam Bhasha Prathinja" appears to be a term related to the pledge or commitment to promote the Malayalam language and its cultural heritage. It may be used in the context of initiatives or campaigns aimed at preserving and promoting the language.

The programme began at 9.30 with a prayer. Then the college principal Dr. Sr. Jessy N C expressed her views about Malayalam. Then students took "Malayalam Bhasha Prathinja". Principal Dr. Sr. Jessy N C delivered the pledge and the students recited it.

The declaration was made by Dr. Manmohan Singh former prime minister of India, during the inaugural function of the celebrations to mark the 125th birth commemoration of Sreenivasa Ramanujan held at Madras University. It was in acknowledgement of his commitment to science, Government of India chose to observe Ramanujan's birth day as the National Mathematics Day. Since then, National Mathematics Day is celebrated every 22 December with numerous educational events held at schools and universities throughout the country. In this silver jubilee year, Mathematics department and Math lovers club of PKM College of education, Madampam, conducted national mathematics day celebration on 19th December 2019. A 3-D figure competition, seminar on December 26th "**Solar Eclipse: Astronomical and Mathematical Implications**", exhibition about Ramanujan's life, treasure hunt and spots games were conducted as part of national mathematics day celebration.

**3-D FIGURE DRAWING COMPETITION**

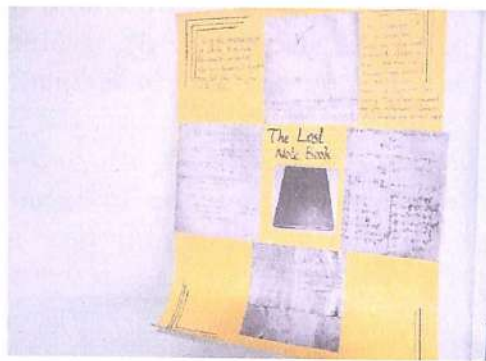

As part of national mathematics day celebration on 19 December 2019, mathematics department and math lovers club organized a 3-D figure drawing competition. The instructions for the competition were announced on 11 December 2019. Ragesh. T and Ribisha. E took initiative to conduct this competition. There was a stiff

**TECHNICAL SESSION 1**

**SEMINAR: “SOLAR ECLIPSE : ASTRONOMICAL AND MATHEMATICAL IMPLICATIONS”**

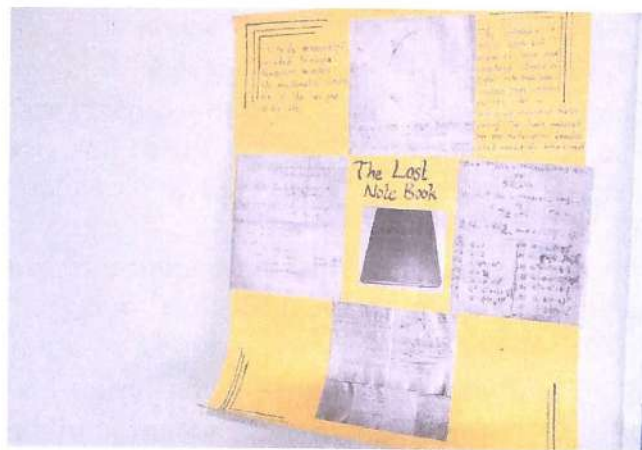

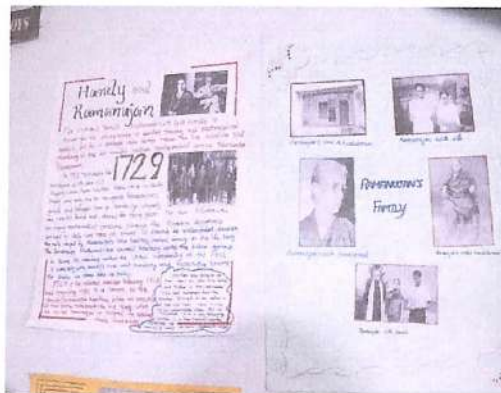

The seminar, “solar eclipse: mathematical and astronomical implications” which is a part of national mathematics day celebration began at 10:30 am. Harsha. A. T. welcomed all. The seminar was led by Prof. K. V. George, the chief guest of the ceremony. He took a class about the partial solar eclipse appears on December 26 and the myths related to the solar eclipse that exist in the community. ## TECHNICAL SESSION 2

After a five minutes brake, technical session 2 started at 11:35 am with treasure hunt.6 groups, each containing 3 members participated in the treasure hunt competition. Arsha. M, Ambili Joseph and Meenu Stephen had the duty of the game. At the same time other games were also conducted for the remaining students. It was managed by Meritta Stephen and Yamuna M. M.

There is a connection between Ramanujan and pi value, since he had tried to find the first 4 digits of pi in his school days. Thus the game was to find the value of pi by calculating  $22/7$ . The participants are given 3 minutes to find the digits and the one who find more digits will be the winner of the game. Giby of second year English won the game by finding 144 digits in the given time.

The next game was named as Addition Master. As the name says, the aim of the game was to find the student who is proficient in mental calculations. The game had two rounds.5 students entered into the second round and Sruthi Ramesh of first English optional became the addition master.

The Department of Language Education- English and IQAC of PKM College of Education, Madampam organised a National Webinar in association with the English Department of the University of Calicut via Google Meet on the 23<sup>rd</sup> of June 2020 at 11 AM. The Webinar that had an eminent resource person in Dr K M Sheriff, Head of the Department of English at the University of Calicut, was on the topic “Technology and Pedagogy: Some Contemporary Issues” owing to the increasing relevance that the pandemic has brought in its wake to the integration of technology in Education. The Webinar was conceived on this scale by Dr. Rekha K R, associate professor in English and IQAC coordinator at PKM College of Education, Madampam and materialised into fruition with the expertise and guidance of Dr K M Sheriff. Information about the seminar was shared widely through posters on various social media platforms such as WhatsApp, Facebook etc. and that translated into great interest from students, Research Scholars and faculty from various colleges and schools from across the nation. Google Forms were utilised for hassle free registration online.

The webinar started at 11 am as participants turned in through the Google Meet link made available through the WhatsApp group created for this purpose. GibyBabu, an alumnus of PKM hosted the webinar with grace and conviction. Dr Rekha K R welcomed all the dignitaries and participants to the webinar from the media room setup in the Net Resource Centre at PKM College. She expressed her gratification in the webinar being conducted with such enthusiasm. She thanked Dr Jessy N C, Principal, PKM College of Education and Dr Sheriff for being the pillars of support in organising this Webinar and articulated her conviction that the webinar will bear fruit and stay true to the topic at hand.

Dr Vijayan K, faculty at NCERT, Delhi inaugurated the webinar and he highlighted the role of education in a nation’s journey on the course of sustainable development and equitable society. He spoke on the need to boost the technological infrastructure across the nation so as to ensure digital literacy of the entire populace. He pointed out that Digital India will only be a reality if all sections of society are brought on board and no one is left out.

Dr Jessy N C presided over the inaugural session and delivered a presidential address that served the purpose of putting into perspective the relevance of the webinar and delineating the pressing issue of technology-pedagogy integration. She conveyed her pleasure in hosting the webinar in association with the English Department of the University of Calicut.

Ms. Giby invited Dr Sheriff to deliver the keynote address and he enlightened the participants with his erudite lecture for an hour. Hedwelled upon the present-day issues of technological infrastructure constraints as learning moves increasingly online. He stressed the opportunities that opens up through the arena of digital learning and wished that the challenges thrown at us by Covid-19 can metamorphose into lucrative prospects if long due systemic reforms are implemented. He kept the session engaging with his natural wit and pertinent observations. He admitted that he is a novice in webinars but his elegance in engaging the participants suggested otherwise. The session lasted from 11.30 to 12.35 with adequate time for interaction. The participants posed their questions through the chat box in Google Meet and Dr Sheriff ensured that all questions were addressed. Questions ranging from the role of teachers in a progressively technological world that sees advancements in Artificial Intelligence exterminating many traditional jobs to the need for orienting parents and equipping them with digital skills popped up and were answered masterfully.

The student coordinator Jomal Jose proposed the Vote of Thanks wherein he gratefully remembered the contributions of Dr Sheriff, Dr Rekha and the staff of both PKM College and University of Calicut. Ms Giby announced the formal dispersal at around 12.40 pm.

Feedback forms were provided for the participants to record their valuable suggestions. Sr Christeena and other staff at PKM College and University of Calicut resourcefully coordinated the technical aspects.

The sudden lockdown can be a testing time for the students but due to the various exams being postponed what it offers is time. The isolation can be a gift for all students if they use it to their advantage by working towards their goal with utmost dedication. Online learning is a savior in these testing times and by choosing to learn from the most qualified teachers at the cheapest of prices students can make the most of the time that they have in their hand. ## World Tourism Day Celebrations

P.K.M. College of Education celebrated World Tourism Day with an event that kicked off at 10 AM on the Zoom platform. The event commenced with a heartfelt prayer, followed by a warm welcome speech from Sister Mini Mol George, who heads the Malayalam Department and serves as the staff coordinator of the Tourism Club. She highlighted the importance of appreciating nature's beauty and finding peace within, viewing tourism as a way to connect with nature's tranquility. The discussion centered around the theme "Tourism for Inclusive Growth," emphasizing the need to preserve Kerala's scenic landscapes, cultural heritage, and climate to attract

tourists.

Dr. Jessy N.C., the Principal of P.K.M. College, encouraged everyone to explore Kerala's hidden gems. She emphasized the transformation of Kerala into a hub of delightful tourism, where visitors can experience the state's natural wonders, cultural diversity, and climate variations. Dr. K.V. Philomina, Chairperson of Sreekantapuram Municipality, graced the event as the chief guest. She praised Kerala's rich cultural heritage and unique features, drawing people from across the globe. Efforts continue to showcase Kerala as a destination where visitors can study and immerse themselves in the state's captivating nature, abundant resources, climate, and cultural diversity. These words marked the inauguration of the event by Dr. K.V. Philomina.

The event proceeded with the unveiling of the magazine "The Untraversed" and the screening of a documentary titled "Ente Naadum, Ente Yaathrakalum." The program also featured an interview session with Santosh George Kulangara, an explorer, and Tourism Minister Muhammad Riyas. **Name of the programme :** "Vaamozhi" - Debate competition and  
"Varamozhi"- Quiz Competition

**Date:**07-11-2022:

On November 7, 2022, in the afternoon at General Hall, a debate competition called "Vaamozhi" was held at the P.K.M. College of Education, Madampam. Malayalam Department Assistant Professor Minimol George (Sister Caroline FCC) made the welcome speech and presided over the competition. "Should primary education be in the mother tongue?" was the thriving topic for the debate. Physical Science Asst. Professor Dr. Prasant Mathew performed the role of moderator in a very delightful manner. From each department, two student-teachers got the opportunity to participate in this debate competition. In this era when the Malayalam language is dying, it is a very relevant topic for discussion to emphasize the importance of the mother tongue. The points presented by each participant were accepted by the spectators with cheers and claps. Arguments were raised and debated. The competition was so interesting because it allowed student teachers to share their perspectives by stating both positive and negative impacts and jotting down the glimpses and benefits of elementary educational language. The debate became unique as the spectators were also given a chance to share their perspective regarding this theme. The results were beside the audience poll, which was taken before and after the debate. The team that argued for the motion was declared the winner. Anusha, a student-teacher from the department of physical science, and Linet Tressa from the department of natural science were adjudged the best speakers.

After the debate competition, a quiz programme named "Varamozhi" was also conducted for student-teachers by the department of Language Education—Malayalam. The questions were set on the basis of language- Malayalam and its significance. From each department, two teams consisting of two participants were given the opportunity to participate. The competition was conducted with great enthusiasm and spirit.

Christy Mariya Joy and Anagha VJ, student teachers in the English Department, got the first position. Physical Science student teachers Anmaria Raju and Christy Philip won the second position, and Natural Science student teachers Aishwarya PV and Anju M J secured the third position. In these programmes led by the students of the Malayalam department, a direct view of the contemporary approach towards mother tongues was revealed. Simultaneously, the discussion helped to instil the idea that the language should be loved and protected. The Department of Language Education—Malayalam was highly recognised for its dedication and love of language.
