PARTICIPATION IN INTERNATIONAL SEMINAR

On July 30, 2024, Vimaljyothi Engineering College hosted an international seminar focused on enhancing inclusion in Higher Education and Employment for Neurodivergent Individuals. The Research Development Cell at PKM College facilitated the participation by sanctioning a letter for 47 students to attend the seminar. Even though fourteen others could not participate physically due to adverse weather conditions, they participated the seminar through online mode. Renowned delegates like Danielle Terrell, an advocate, international public speaker, and consultant from NY, USA. William (Bill) Peters, from Inclusive Bright Life, Inc., Azerbaijan, Dr. Sunish TV, Assistant Professor in Special Education and Head of Special Education CRC Kozhikode. Alea Reis, an artist from Brazil. Stuart G. Bennett, a Psychotherapist from Oregon, USA. Jeena Pollution, Principal of Student Support Services at Stuyvesant High School, NYC, USA. were the speakers of the event. The organizing committee meticulously planned the seminar to ensure a comprehensive exploration of the topic through various sessions and expert presentations. The seminar featured four engaging sessions, each focusing on different aspects of inclusion for Neurodivergent individuals. They shared best practices and strategies for creating inclusive environments. Foster collaboration among educators, policymakers, and practitioners. Equip future educators, particularly B.Ed. students, with the knowledge and tools to support Neurodivergent individuals.

VIDEO RECORDING

Video lessons are an important part in teaching practice period. Fr. Sijo Thaliyath, Director of CS Media, handled the session with demonstration of recording. The class started at 11 am, the venue was Audio Visual Room of our Campus. This session was attended by both students and teachers. For a better understanding Father divided the class into two. The first was significance of video lessons and latter was technical side of Video recording. Father explained how technology transformed traditional teaching methods into more interactive while applying in teaching arena. In the second part, he talked about its advantages, theoretical aspects of multimedia in learning process. Students were oriented with various technologies incorporated in learning process in digital era, like educational softwares, interactive panel etc. Father explained about best practices for recording in different class room setting and tips for editing and distributing the content. The class was relevant and remarkable for student teachers.
